

Q Profile

A Computer Games Techonology graduate with a passion for technology. My biggest strengths are my communication and organisational skills. Founder and president of a computing society at Birmingham City University, organised numerous hackathons and completed a one year work placement working for Birmingham City University.

★★★☆☆

🧑 Personal Skills

- **Leadership** - I have always lead or strived to lead any team that I have worked in, a very useful skill during my time as president of the Hackathon and Computing Society.
- **Communication** - I am able to speak directly to people and use this to achieve results, a very useful skill when aiding students or organising events.
- **Event Organization** - I have experience with organising multiple hackathons (BCUHack, Hack-TheMidlands, LocalHackDay '16, BullHacks) , as well as smaller events.
- **Public Speaking** - I am confident speaking in front of people and clearly communicating my message.

♥️ Interests

- Environmental Preservation
